Searching Standards for Federal Courts:

District Courts index by defendant, plaintiff, and by case number. Bankruptcy Courts usually index by debtor and case number. Most case files created prior to 1999 were maintained in paper format only. Since 2006, all cases are filed electronically. Paper case files may be stored at the courthouse or forwarded to a designated Federal Records Center (see <http://archives.gov/frc>), the timeframe determined by the Court. These case files may be obtained via the Court or directly from the FRC.

Case data may be viewed PACER, the online public access program. An account is required, the fee is \$.10 per page; there is no fee if a usage does not exceed \$15.00 in a quarter. For details about PACER see the Appendix or go to <https://www.pacer.gov> or call 800-676-6856.

The copy fee is \$.50; \$.10 if electronic document is printed from terminal. Certification fee is \$11.00 per document and \$21.00 for exemplification, if available. If a case is still available from the individual federal court, the search fee is \$30.00. If the case is at the Archives, the case can be ordered from the court. The fee to retrieve a paper file is \$64.00 for the first box and \$39.00 ea add'l box. Also, the public can order copies direct online from the National Archives. Copies can be delivered by mail, fax, or email. See more information, including fees, at www.archives.gov/research/court-records/55.

The Supreme and Appellate Courts

The Supreme Court is the court of last resort. Montana does not have an intermediate appellate court. Consequently, the Supreme Court hears direct appeals from all of the District Courts across Montana, as well as from the Workers' Compensation Court and the Water Court. Supreme Court opinions, orders, and recently filed briefs may be found <http://searchcourts.mt.gov>.

Details on the Court Structure

The **District Courts**, the courts of general jurisdiction, handle all felony cases and probate cases, most civil cases at law and in equity, and other special actions and proceedings.

The courts of limited jurisdiction are **Justice Courts**, **City Courts**, and **Municipal Courts**. Although the jurisdiction of these courts differs slightly, collectively they address cases involving misdemeanor offenses, civil cases for amounts up to \$12,000, small claims valued up to \$7,000, landlord/tenant disputes, local ordinances, forcible entry and detainer, protection orders, certain issues involving juveniles, and other matters. Some Justice Courts and City Courts have consolidated.

Effective July 1, 2011, the District Court's minimum civil limit amount was raised from \$7,000 to \$12,000; the lower courts maximum from \$7,000 to \$12,000; small claims from 3,000 to \$7,000, and City Court jurisdiction on certain matters from increased from \$5,000 to \$9,500.

Also, Montana has a **Water Court** and a **Workers' Compensation Court**.

Record Searching Facts You Need to Know

Fees and Record Searching Tips

Most District Courts charge \$2.00 per name per year, first 7 years, then \$1.00 per year for searching. Copies are usually \$1.00 per page first 10 pages, then \$.50 per page after. Certification is usually \$2.00. A document titled *Access to Court Records* is found at http://courts.mt.gov/crt_records/faq.mcp. The document advises that all documents filed with the court should not contain the full DOB, unless required by law.

Per statute and effective July 1, 2013, the courts charge \$.25 per page to send a document by either fax or email.

Many Montana Justices of the Peace maintain case record indexes on their personal computers, which does speed the retrieval process.

Online Access is Non-Existent

There is no statewide access to docket information from the trial courts. Several courts respond to email requests, but none offer online access to records.

The state does have an existing centralized case management system and is working towards implementing an e-filing system sometime in the future.

Montana Recording Offices

- Organization:** 57 counties, 56 recording offices. Yellowstone National Park is considered a county but is not included as a filing location. The recording officer is the County Clerk and Recorder, and Clerk of District Court for state tax liens. Montana is in the Mountain Time Zone (MST)
- Types of Record Recorded:** The types of documents recorded include all transactions having to do with land such as deeds, deeds of Trust, releases, easements, surveys, plats, affidavits; as well as birth record, tax liens, and court related judgments.
- Searching Real estate Records:** Many Montana counties will perform real estate searches. Copy fee is usually \$.50 1st page, \$.25 each add'l. Certification fee is usually \$2.00 per doc plus copy fee.
- Searching UCC Records:** Financing statements are filed at the state level except for real estate related collateral which are filed with the Clerk and Recorder. Note prior to July, 2001, consumer goods collateral were also filed at the county and these older records can be searched here. The UCC search fee is usually \$7.00 per debtor name.
- Searching Tax Lien Records:** Federal and state tax liens on personal property of businesses and on individuals can be filed either with the Secretary of State or with the County Clerk and Recorder. State tax liens on individuals can also be filed with the Clerk of District Court. So all locations must be searched for an accurate statewide search. Most counties will perform tax lien searches, some as part of a UCC search and others for a separate fee, usually \$7.00 per name. Copy fees vary.
- Online Access:** There is no statewide search for recorded documents at the county level, but an increasing number of counties offer data online free or via a vendor for a fee.
All counties participate in a free search for a Montana property owner by name and county on the Montana Cadastral Mapping Project GIS mapping database at <http://svc.mt.gov/msl/mtcadastral/>.

Montana County Locator

You will usually be able to find the city name in the City/County Cross Reference below. In that case, it is a simple matter to determine the county from the cross reference. However, only the official US Postal Service city names are included in this index. There are an additional 40,000 place names that people use in their addresses. Therefore, we have also included a ZIP/City Cross Reference immediately following the City/County Cross Reference.

If you know the ZIP Code but the city name does not appear in the City/County Cross Reference index, look up the ZIP Code in the ZIP/City Cross Reference, find the city name, then look up the city name in the City/County Cross Reference. For example, you want to know the county for an address of Menands, NY 12204. There is no "Menands" in the City/County Cross Reference. The ZIP/City Cross Reference shows that ZIP Codes 12201-12288 are for the city of Albany. Looking back in the City/County Cross Reference, Albany is in Albany County.
