New Hampshire Federal Courts

Searching Standards for Federal Courts:

District Courts indexed by defendant, plaintiff, and by case number. Bankruptcy Courts usually index by debtor and case number. Most case files created prior to 1999 were maintained in paper format only. Since 2006, all cases are filed electronically. Paper case files may be stored at the courthouse or forwarded to a designated Federal Records Center (see <http://archives.gov/frc>), the timeframe determined by the Court. These case files may be obtained via the Court or directly from the FRC.

Case data may be viewed PACER, the online public access program. An account is required, the fee is \$.10 per page; there is no fee if a usage does not exceed \$15.00 in a quarter. For details about PACER see the Appendix or go to <https://www.pacer.gov> or call 800-676-6856.

The copy fee is \$.50; \$.10 if electronic document is printed from terminal. Certification fee is \$11.00 per document and \$21.00 for exemplification, if available. If a case is still available from the individual federal court, the search fee is \$30.00. If the case is at the Archives, the case can be ordered from the court. The fee to retrieve a paper file is \$64.00 for the first box and \$39.00 ea add'l box. Also, the public can order copies direct online from the National Archives. Copies can be delivered by mail, fax, or email. See more information, including fees, at www.archives.gov/research/court-records/55.

The Supreme Court

The Supreme Court is the appellate court and has jurisdiction to review appeals from the State trial courts and from many State administrative agencies. It also has original jurisdiction to issue writs of certiorari, prohibition, habeas corpus and other writs. There is not an intermediate Court of Appeals. Opinions are accessible from the web page.

* Profiled in this Sourcebook.

Details on the Court Structure

The **Superior Court** is the court of General Jurisdiction with jurisdiction over many cases types including criminal, domestic relations, and civil cases, and is the only forum in this state for trial by jury. Felony cases include Class A misdemeanors. The Superior Court has exclusive jurisdiction over cases in which the damage claims exceed \$25,000. The Superior Court also oversees case involving negligence, contracts, real property rights and other civil matters with a minimum claim of \$1,500 in damages in which either party requests a trial by jury. There are 11 Superior Court sites in New Hampshire, one for each county and two in Hillsborough County.

Each county has a **Circuit Court** with three Divisions: **District, Family and Probate**. This structure is the result of legislation. Prior to July 1, 2011, there were separate District, Probate, and Family Courts. Motor vehicle violations are processed by the Division of Motor Vehicles unless a trial is requested, then the case is heard within the Circuit Court. Probate cases are filed in the Circuit Court located at the county seat.

To view which town is associated with which court jurisdiction, use the tool found at www.courts.state.nh.us/courtlocations/index.htm.

Record Searching Facts You Need to Know

Fees and Record Searching Tips

Since Circuit Courts (formerly District Courts) are organized by town and not by county, each physical Circuit Court Division has continued to maintain its own database of records. Thus a search of misdemeanor records in a county would require a search at each of the Circuit Courts in that county. However, with the reorganization it is expected that records will eventually be consolidated within a county.

The fee structure, set by the New Hampshire Supreme Court, is as follows: computer search - \$20.00 per name for up to 5 names, then \$5.00 each add'l name in that request; manual search - \$25.00, usually when archived or paper records are included. Copies are usually \$.50 per page; a few offer self serve copying. Certification fee is \$10.00, some courts may or may not include the copy fee. No public access terminals are found at NH courts. Most Circuit Court case files are electronic since the mid 1990's.

All Superior Courts have switched to the toll free call center telephone number (1-855-212-1234). This number took the place of the individual court phone numbers.

Also of note is that the current jurisdiction of the Franklin Circuit Court includes towns from two counties – Merrimack and Belknap.

New Hampshire Recording Offices

Organization:

New Hampshire has 10 recording offices. There are 233 cities/town which previously handled the filing of UCCs. The recording officers are Register of Deeds (for real estate only) and Town/City Clerk (for UCCs). Be careful to distinguish the following names that are identical for both a town/city and a county - Grafton, Hillsborough, Merrimack, Strafford, and Sullivan. The following unincorporated towns do not have a Town Clerk, so all liens are located at the corresponding county: Cambridge (Coos), Dicksville (Coos), Green's Grant (Coos), Hale's Location (Carroll), Millsfield (Coos), and Wentworth's Location (Coos). New Hampshire is in the Eastern Time Zone (EST).

Types of Documents Recorded:

Deeds, mortgages, liens and attachments, and other documents pertaining to land records are filed with the Registry. Plans of properties that have been surveyed and recorded will also be found in the Registry, but not all properties have a survey.

Real estate Records:

Real estate transactions are recorded at the county level, and property taxes are handled at the town/city level. Local town real estate ownership and assessment records are usually located at the Selectman's Office. Most New Hampshire counties will not perform real estate searches. Copy fees vary, usually \$1.00 per page. Certification fee generally is \$2.00 per document.

Searching UCC Records:

This was a dual filing state until Revised Article 9. Previously, financing statements were filed at the state level and with the Town/City Clerk, except for consumer goods and farm related collateral which were filed only with the Town/City Clerk, and for real estate related collateral which was and still is filed with the county Register of Deeds. Most recording offices will perform UCC searches. Use search request form UCC-11. UCC search fees range from \$5.00 to \$10.00 per debtor name. Use standard UCC-11 request form. Copy fee is usually \$1.00 per page.

Searching Tax Lien Records:

Federal and state tax liens on personal property of businesses are filed with the Secretary of State. Other federal and state tax liens on personal property are filed with the Town/City Clerk. Federal and state tax liens on real property are filed with the county Register of Deeds. There is wide variations in indexing and searching practices among the recording offices.

Online Access:

Recorded deed data is available online from a vendor endorsed by all the Register of Deeds offices. Free name searching is provided, but fees required for images. See www.nhdeeds.com.

Tax Assessor Records:

Online access is available for nearly all towns, either from the town itself or a vendor, as shown in the profile below. Several of the more widely used vendors are:

- See <http://www.vgsi.com/vision/Applications/ParcelData/NH/Home.aspx> for approximately 44 participating jurisdictions. Access varies; some allow free index searches, some require registration, and a few may charge for access.
- See <http://data.avitarassociates.com/logon.aspx> for over 100 towns. Three fee structures offered, ranging from \$25 for one town/one month to \$500 for all towns for one year.
- 23 town provide GIS/mapping info using a unique site managed by www.caigisonline.com.

New Hampshire County Locator

You will usually be able to find the city name in the City/County Cross Reference below. In that case, it is a simple matter to determine the county from the cross reference. However, only the official US Postal Service city names are included in this index. There are an additional 40,000 place names that people use in their addresses. Therefore, we have also included a ZIP/City Cross Reference immediately following the City/County Cross Reference.

If you know the ZIP Code but the city name does not appear in the City/County Cross Reference index, look up the ZIP Code in the ZIP/City Cross Reference, find the city name, then look up the city name in the City/County Cross Reference.
